The figure is a box plot comparing the distribution of a numerical variable (y-axis) between two groups: 'Control' (red) and 'SCZD' (teal). The x-axis is labeled 'PrimaryDx'. The y-axis ranges from 0 to 10. The 'Control' group has a median around 4.5, with a box from approximately 3.5 to 5.5. The 'SCZD' group has a median around 3.5, with a box from approximately 2.5 to 4.5. Both groups show significant outliers, with the 'Control' group having several points above 6 and below 2, and the 'SCZD' group having several points above 7 and below 2.
